

K-LOVE serves my spiritual needs day in and day out 24/7, and also the needs of thousands of people in the San Francisco Bay Area, and the Peninsula. They have a great and wonderful ministry that lets other people know about the good news of Jesus Christ.

It would be a great loss for the community if K-LOVE would cease to exist because of the proposed LPFM broadcaster providing other programming. It is not acceptable that they would not be able to continue their broadcasting.

I was very happy when I finally found a radio station that fill my needs, no other radio station can do that. Most of the other stations do not care about people like K-LOVE does.

K-LOVE provides ministries that reach out to the community, to all the people in need.

You have to take into consideration all of these things when you think about making K-LOVE end its programing.

I support K-LOVE 100%.

Thank you for your time.

Luis Perez
